12. Hortus Malabaricus (12 Vols);

Prof. K.S. Manilal

Hortus Malabaricus, published from Amsterdam in 12 Volumes during 1678-1693, is the oldest comprehensive printed book on the

natural plant wealth of Asia and of the tropics. It was compiled and printed by Hendrik Adriaan Van Rheedee tot Draakestein, the then Dutch Governor of Cochin. Hortus Malabaricus is unique because it contains valuable information on the plant wealth of Kerala as the first ever printed book on the subject and the ancient traditional ethno medical knowledge of Kerala Physicians about the medical properties of plants, with details regarding the disease for which they were used for treatment, the methods of preparation of the drug and how to apply the same. The book gives the history of Botanical Science in India and the socio-cultural conditions in 17th Century India.

By presenting these data for the first time in the English language, 325 years after its original publication in Latin, with appropriate annotations and commentaries, the present book throws the doors of the vast and fascinating treasure house of Hortus Malabaricus wide open to scientists, medical practitioners, sociologists and historians.

ISBN :86-86397-57-4.

Pages: 3490
